

# We're Hiring! GIS Intern

WEBB is currently seeking a highly motivated and skilled Geographic Information Systems (GIS) Intern to work with and support members of our GIS Team.

## Requirements & Responsibilities

- Perform technical editing and digitizing to produce a wide variety of maps, web maps, reports, and other related GIS assignments under general supervision
- Experience with ArcMap, ArgGIS Server, ArcGIS Online, and other ESRI products
- Minimum of two years professional GIS experience; college courses may substituted for one year of required experience
- Employment contingent upon passing a background check
